Connecting Rods Broken.

Fright At a Railroad Station in Rahway, New Jersey.

Locomotive 719 Smashed, But Dashing on at Nearly a Mile a Minute—The Escape of the Engineer and his Assistant.

From the New York Sun.

The express trains on the Pennsylvania Railroad, between New York and Philadelphia are said to be the swiftest run in this country. They make the trip from New York to Philadelphia, including the ferriage of the North river and stoppages at Trenton and Germantown Junction, in two hours. On Wednesday last train No. 25, of which Mr. Osborne is engineer, made the run from Jersey City depot to the Philadelphia depot in one hour and thirty-nine minutes. Allowing for two stoppages, that makes the running time very close upon a mile a minute. It was a little faster than usual, because the train was a little behind time in starting, but Bishop got it to its destination on time.

NO ACCIDENT IS MORE COMMON

at this season than the breaking of the great steel bars, known as "connecting rods," uniting the driving wheels. The breaking of one of these will shatter to fragments the whole side of the locomotive's cab, and perhaps crush the engineer and the fireman before they can be conscious of catastrophe that is upon them. A few months ago engineer Osborn was running at full speed, and one of the connecting rods of the locomotive broke, instantly destroying two-thirds of the cab in which he stood. He sprang through the flying fragments of the wreck to the boiler, made good his hold, though at the cost of some severe burns, and drew himself up astride it. On Thursday another such accident occurred. Train No. 19—lightning express—is run in two sections, each consisting of a combination baggage and express car, a Pullman palace car, and three passenger coaches. Were all the cars in one train, it would be almost impossible to make

THE REQUIRED RUNNING TIME,

hence the division. The first section starts from the Jersey City station at 4:05 P. M. The Pennsylvania road is is worked altogether upon a system of "block signals." No train is permitted to enter upon a "block," or certain length of road, until the preceding train has run off that block. The second section of No. 19, therefore, could not start from Jersey City until three or four minutes after the first. The first section was drawn by locomotive No. 719, one of the finest on the road, with Engineer John Covert in charge. When within fifty paces of the platform of the Scott avenue station in Rahway, while going at the full speed of almost

A MILE A MINUTE,

the connecting rod on the left side of the locomotive broke near the front driver, and the long steel arm was plunged down through the deep rock ballast and hard clay bed of the track to a depth of five feet, and then, of course, wrenched from its connection. The engineer and fireman sprang from their cab back into the tender, and not an instant too soon, for the terrific strain thrown upon the right hand connecting rod snapped that also, and its portions, whirling with almost lightning rapidity, demolished one side of the cab and the footboard that extends along the boiler. There was no appreciable time between the tearing loose of the buried left hand rod and the breaking of the right hand rod, but

AN INDICATION OF THE SPEED

at which the locomotive was moving was afforded subsequently by the fact that seventy-five feet were passed over before the right hand rod left its first track—there gouging out an enormous chunck from the beam that lies outside the rail across Scott avenue. Then one part plunged through a two-inch platform plank, and another part mashed off the ends of the ties and sent the road ballast flying in a shower. The stones thus thrown up broke windows in the depot ten feet above the platform and chipped pieces from the brick wall. The longer part of the right hand rod—that which

WRECKED THE CAB AND FOOTBOARD

—ploughed its way again and again through the platform, until finally it met some resistance too firm to be torn away, and then it, too, wrenched itself loose from the rear driver, with the rebound darted in an arc through the air for thirty feet, and finally punched one of its ends through the platform close to the depot. But the train was still rushing on with undiminished speed. The braces on the right side of the boiler had been knocked away, the stay bolts torn out, and

A HOLE PUNCHED IN THE BOILER.

Michael Rino, the crossing tender at Grand street, Rahway, could see nothing but fire, smoke and steam as the train flew past. It is nearly half a mile from the Scott avenue station to the Cherry street crossing. All that distance the train was carried along by its own momentum. The engineer and his assistant, after the blows upon the cab had ceased, sprang to the work of drawing the fire from under the boiler, and that made a wake of fire along the track. Then broken were sighted, had on the Cherry street crossing a few rods from the Rahway depot, the battered locomotive was stopped. Nobody was hurt, but railroad men regard the escape of the engineer and fireman as almost miraculous.

A Train Laying Its Own Track.

The idea of making a train lay down and take up its own rails as it moves along is not a new one, but an interesting realization of it is now to be witnessed in the Jardin des Tuileries, Paris. From the mechanical point of view, one is struck with the smallness of the force required to move a train thus arranged. In the Jardin des Tuileries the train consists of three carriages, capable of containing in all thirty children, and often full. These are drawn by two goats, which work thus for seven hours. The total load is about 1000 kilogrammes. To draw a like weight in three carriages on ordinary roads would require a dozen goats, four for each vehicle. The normal speed is two and a half to four miles per hour. The system is, of course, not designed for passenger traffic, but for goods, and in many places, with bad roads or none, might be very serviceable.

Removal.

The Great Eastern I X L will be moved temporarily to Prescott's store on Commercial Row and the great sale of damaged goods will commence at once. All the goods in the store at the time of the fire will be sold out regardless of value, cost or quantity. A new and elegant stock, worth between $20,000 and $25,000 is on the way and has begun to arrive, so that all who desire will have an opportunity before the holidays to buy our fresh, new and beautiful goods. The old stock will be entirely cleaned out, and everything will be the latest patterns and best style. Our goods will be of fine quality, but low price and we will have the largest stock ever shown in Reno.

Nothing in the way of gifts pleases the ladies so well as jewelry. Goeggel, the Virginia Street Jeweler, has opened for the Holiday trade a large and elegant stock of jewelry, watches, plated and solid silver ware, clocks, and optical goods. Particular attention is called to the fact that his stock is entirely new. He exhibits some beautiful novelties in truscan gold jewelry, comprising sets, necklaces lockets, chains, etc. He has jewelry set with diamonds and precious stones in variety. Most of his jewelry is 14 and 17 karats fine, and no article in his stock has been over a year out of the manufacturer's hands.

THE "GAZETTE" FOR 1880.

We can say with assurance that the GAZETTE will be a better newspaper in 1880 than at any previous period in its history. Our facilities have been increased in every department, and with larger experience, we cannot fail to make a thoroughly live, reliable and newsy paper. It will contain in a condensed form, all general news—Congressional, political, commercial, religious and social—while this part of the country will be scraped for home news. Everything of a vicious or immoral nature will be, as heretofore, rigidly excluded from its columns. It will, in short, be a complete family newspaper. The weekly is double the size of the daily, and contains all its reading matter. Although everything in our line has gone up, there will be no advance in prices. For terms to clubs, etc., see advertisement.

DISGRACEFUL CONDUCT.

A lot of young men, ranging from fifteen to twenty years, have a habit of assembling in the neighborhood of the churches on Sunday evenings, and by hooting and yelling, disturbing the services. We hardly know how to express our sentiments in regard to such matters as this. To say that it is disgraceful, is merely to scold without doing any good. To tell the boys they ought to be ashamed of themselves, only serves to destroy their self respect and confirm their hoodlum tendencies. Perhaps the best way to do would be to try to show the great advantage of being gentlemanly and respectable. The disgust we have for such silly and brutal conduct as that of the crowd that was singing Pinafore gags, mingled with shouts and yells, on the school house steps last night, to the annoyance of the worshipers in the Methodist church, inclines us rather to swear out warrants and have the whole batch put in jail over night, than to use moral suasion. Parents must be proud of such education as that kind of conduct shows them to have given their sons.

EDITORIAL NOTES.

"Buddhism, which claims among its followers more than all the other leading religions combined, seems almost too good a faith to be an erroneous one. Other religions may teach as pure a code of morals, but no religion on earth is so effective in practice. Nothing can equal the moral perfection of these people. A Buddhist never lies, he would as soon cut his hand off. No notes are ever given in monetary transactions. The man who owes will sacrifice everything in his posession before he will allow a financial obligation to be repudiated, no matter how small the amount."—*Carson Appeal.* The *Appeal* makes the mistake of confounding morality and religion. He pays his debts not because he is a Buddhist, but because he is honest. Religious belief has no more connection with moral nature than a man's stature has.

Operations are to be suspended at the Savage mine. The company proposes to stop work in the mine until a drift can be run under the bottom of the Savage incline from the C. & C. shaft. About 90 men will be thrown out of employment by the change. As soon as pumping ceases in the Savage the lower levels of the Hale & Norcross will be flooded, and the latter mine will probably also have to shut down and pursue the same plan of operations as the Savage.

The "Bulletin" Free Seed Distribution for 1880.

Arrangements have been perfected for a free seed distribution among the subscribers of the "Bulletin" of several kinds of rare and valuable trees, vegetables and flower seeds. Great care has been taken to choose varieties that have been tested sufficiently in this country or elsewhere, to prove their value for the Pacific Coast, and such as are not readily obtained through ordinary channels. The object has also been kept constantly in view of obtaining such varieties as would prove, not only of benefit to our subscribers, but an advantage to the whole coast. Some of the more valuable of the list have not yet found their way into the catalogues of American seedsmen, and are not obtainable in this country. Several varieties have been ordered from England, France and Japan at large expense, and the actual retail value of the seeds to be presented to each subscriber will about equal the subscription price of this paper.

The distribution will be made during the ensuing winter, and will commence as soon as the last shipment arrives from Europe. There will be delay in the arrival of some of those from France on account of the necessity, in order to obtain perfectly fresh seeds, of waiting for the ripening of the crop of the present season. As soon as possible the date for commencing the distribution will be announced with full particulars through these columns, and in the meantime a description of each variety, accompanied in most cases by an illustration, will be published, and each subscriber will be able to judge of the adaptability of the different kinds to his locality.

In view of the seed distribution and the fact that the Reno Weekly GAZETTE, the Friday's "Bulletin" and the Weekly "Bulletin," are all given for $3, this is the greatest inducement to subscribe ever offered on the Pacific Coast. nov10-1mo

JOTTINGS.

— Deer in market.

— Trout are again plentiful in market.

— About $300 of delinquent taxes have been paid.

— The Rapp Bros. have closed their hotel at Steamboat for the winter.

— California and Con. Virginia have each declared a four bit dividend.

— R. F. Hoy says there are between 15 and 20 new houses going up in Reno.

— Freight train No. 7, came into Reno Saturday night with 53 cars, 17 loaded.

— Brookins is making an attractive display of toys, fruits, nuts, etc., for Christmas.

— Knust & Jones report good sales of holiday goods. They have a very fine stock.

— Dr. H. F. Adams, an old army surgeon, can be found at the Arcade hotel. See ad.

— The bell tower of the Congregational church is now the favorite resort of pigeons.

— Twelve bars of Union bullion, the first shipment from the mine, went through on Saturday night.

— Lachman & Meyer have opened up a big stock of toys, candies and fancy goods for the holidays.

— Many local items, including several "Church Notices," etc., were crowded out of Saturday's GAZETTE.

—Jack Denning and Alvaro Evans had a slight disagreement this morning and in the scuffle Jack shed a little claret.

— B. F. Bacon was the winner of the gold watch at the raffle on Saturday evening. His throw, by deputy, was 44.

— There is an unusually large demand for money orders just now, at the Post-office. Money orders make very acceptable Christmas gifts.

— The Central Pacific railroad has put in 5 of Sellers' iron turn tables in place of worn out wooden ones, between Reno and Ogden this year.

— The Dane who fell off Marlke's flume at Washoe City last Monday, died on Friday from the effects of his injuries. He was buried Saturday afternoon.

—Gov. Stanford has gone home, so the change of time will be settled at once. The Union Pacific is "bucking" and will not meet the change if they can help it.

—Pete Comstock is a very strong man. This morning he lifted clear of the ground one end of a wagon loaded with over half a ton of butter. It was not "self raising" butter either.

—T. B. Camp, is making a fine map of Reno, which will be the most accurate one ever made here. It shows building in town. The wooden ones colored yellow and the brick ones red.

—The name of "the prettiest girl" ever seen by Mrs. Grant, is one of those things that no fellow can find out. But it can be confidentially stated that she lives within a mile of the court house and frequently goes to church.

—Abrahams received a large lot of very handsome silk and linen handkerchiefs to-day. Some of them have Merry Christmas, Happy New Year, initials, etc., worked on them and others embroidered tastefully. They also received some fine suits, overcoats, etc.

Steam Saw Mill.

Hayden Hill in Big Valley, Modoc county, is to have a steam saw mill. The machinery was hauled into town yesterday on its way to its destination. Two teams are employed in conveying the two boilers. They remained here yesterday. Mr. Counter had the machinery in charge.

Henry Johnson's Interview With a Reform Club Committee.

It is reported that a Reform Club committee waited upon Henry Johnson to-day. The spokesman said there was a subject into which Mr. Johnson had profound insight, and upon which, from his long experience and practical acquaintance with the topic, he could deliver an able, entertaining and exhaustive address. That subject was beer. Would Mr. Johnson gratify the Club and the public by a lecture upon the topic?

Mr. Johnson in reply remarked briefly that he had drank several rivers and seas of beer, and considered himself tolerably well informed upon everything relating to that fluid. He explained that, owing to the peculiar dryness of the atmosphere of Nevada he found himself unable to talk long without moistening his throat with that palatable beverage. In conclusion he asked the committee if they had two bits about them.

The committee were much confused upon hearing this request from Mr. Johnson, and stepped to one side for a hurried consultation. After a whispered conferance, the spokesman advanced, and said the committee regretted their inability to produce the required coin.

"Well," said Henry, "if you can't raise two bits, I don't see any use in talking."

This closed the interview.

Criminal Matters.

Joe Wyman has been held to answer on the charge of breaking into and robbing the premises of Samuel Myers. His bail was fixed at $1,000, and in default he was remanded to jail.

The examination of Joe King on the same charge, was commenced this morning, and was not concluded when the GAZETTE went to press.

Last night Constable Avery received instructions from Sheriff Hill of Carson to asrest a man named George West who came down on the lightning last evening. Avery found his man shortly after the arrival of the train and locked him up. Sheriff Hill came down on the first train this morning and took the prisoner back to Carson.

W. B. McGuire's examination has not yet taken place.

An Ingenious Show Case.

S. N. Davidson was not satisfied with a revolving window, has branched out still further and thinks of setting his whole store on wheels. Mr. Gerber, whose inventive genius equals his skill as a mechanic, has constructed a large frame with four shelves. It is lit up by a great number of candles, the heat from which striking a fan wheel at the top causes the whole thing to revolve just as the heat from the stove will turn the little toy wheels sold at the stores. The shelves are loaded with handsome silver ware, fine glasses etc., and the whole makes a fine show.

Personal.

H. F. Adams, M. D., formerly of Chicago and recently of Oakland, California, has arrived at Reno and is stopping at the Arcade, McFarland's hotel and lodging house, for one week only. The Doctor gives particular attention to surgical diseases of the eye and ear and cdronic diseases. The Doctor has almost a sure cure for Asthma and Catarrh and all diseases of the respiratory organs. Special attention to diseases of females. The afflicted would do well to call and see the him at the Arcade. dec15-1w

A Paper Wedding.

Mr. and Mrs. C. W. Jones were comfortably installed in their new house in time to celebrate the second anniversary of their marriage with a "paper wedding" last Saturday evening. Upwards of fifty of their friends were present, and had a good, sociable time. They left many appropriate gifts as souvenirs of the occasion.

The Reform Club Soiree.

The Reform Club meeting last Saturday had an unusually large attendance. Rev. Mr. McKelvey's address on "Reform and Reformers" was an earnest and eloquent discourse, and was listened to with great interest. The literary exercises and singing were especially good. The dance which followed was heartily enjoyed. The soiree was the most successful, in a pecuniary sense, that has yet been given.

New Divorce Suit.

The wife of M. C. Lake has commenced a suit for divorce. The complaint alleges extreme cruelty. The complainant prays for a division of the common property, valued at $300,000, $500 a month alimony, and $5,000 counsel fees. She also asks for the custody of the boy Charles. C. S. Varian is counsel for the plaintiff, and R. M. Clarke has been retained by the defendant.

Fine Weather.

The people of this part of Nevada are enjoying the very finest winter weather this season. Warm, sunny days, and cold, frosty nights are the rule. A man remarked to-day that he was tired of sunshine. There is no brighter, sunnier climate in the world than this of the Truckee basin.

The Coming Ball.

Everything in connection with the "48" ball on new year's eve progresses favorably. The cause is a good one. The engine needs more hose and the proceeds will be devoted to that object. Let every one buy a ticket.

Loads of Butter.

Two large wagons, loaded with butter, are in from Sierra and Clover valleys. Each load contains over half a ton. One wagon load will be taken to Virginia and sold. The other was to be disposed of here.

PERSONAL.

Justice Young's wife is quite sick.

E. Chielovich was in town yesterday.

Assessor Everett's sick child is much better.

S. M. Jamison and Lew Walker are home again.

General R. M. Clarke was in town yesterday.

T. V. Julian, of the Con. Esmeralda, goes below to-night.

John Skae and D. A. Bender, came up from California yesterday.

W. H. Smith, of the Belcher, and Hon. Wm. Woodburn went west last night.

R. D. Ferguson, speaker of the late Assembly, is recovering from an attack of pneumonia in Bodie.

George Lovell, the photographer, is in town, on his way from eastern Nevada to the Comstock.

The Rev. Mr. Bluett will remain in Reno, having accepted the spiritual charge of the Baptist congregation.

Dr. Hogan has returned to Reno to make it his permanent home. This will be an equally satisfactory arrangement for the doctor and his many friends in Reno and vicinity.

A Quick Way To Unload a Wagon.

G. W. Huffaker, Rev. James P. O. Packard and a big bag of bran, started for home after lodge Thursday night, all perfectly sober except the bag of bran. Huffaker was driving, and instead of striking the bridge on the ditch at Anderson's, he got six feet to one side and gave the boys a slight jolt preliminary to the grand shake up, when he put them through the large ditch just beyond. Here the horses got slightly excited and quickened their pace just as the bag of bran pitched overboard and caught between the wheels, locking them both and aided by the loud shouts of "Whoa" and the tugging on the lines brought everything up standing. Huff went out on one side, James on the other and Packard turned over backwards lighting on the back of his neck. He says he was thinking of several charities he intended to add to the $750 he gave away that evening and that fact saved him serious injury.

Two Engines Collide.

A severe collision occurred on the V. & T. R. R. yesterday. A special train with two engines going up was trying to make the Yellow Jacket side track for train No. 6. Yoemans' the conductor, found his time very short and he cut off the head engine and sent it ahead to hold No. 6. Havenor, conductor of No. 6, had cut off his head engine and sent it on to do some switching and the two met near the tunnel. Mr. Beedle, a brakeman, well known here and on the Central Pacific, was thrown against the boiler head and the wood from the tender slid down on him, inflicting some injuries, just how serious could not be ascertained. The head lights and pilots were shattered to fragments and the engines wedged together so tightlp that it took considerable pulling to separate them.

Aid For Ireland.

P. J. Kelly, J. D. Shaw, Pat Hogan and James Sullivan will canvass Reno to-morrow for the purpose of giving people an opportunity to contribute to the fund raised in Virginia and other Nevada cities, for the benefit of suffering people of Ireland. No people are more generous when there is any suffering than the demonstrative, fun loving Celt, and the picture of woe which comes from over the sea should make people generous, even though times be hard and money scarce.

The Western Nevada R. R.

Articles of incorporation were filed to-day with County Clerk Parish for a narrow gauge railroad to run from Wadsworth to Walker Lake, through the counties of Washoe, Lyon, Churchhill and Esmeralda. The capital stock is $500,000, divided into 5000 shares. The first board of directors is J. T. Davis, J. W. Holmes and James Meehan of San Francisco, G. L. Woods of San Jose, and A. J. Rhodes of Belleville. The road will be 55 miles long including branches. The road would tap Sutro with a branch and probably several other places including Bodie.

School For Girls.

The present term of the Bishop's School for Girls, will close on Wednesday. The Musical Rehearsal will take place in the evening, for which invitations will be issued. These rehearsals were formerly open to the public, and the Bishop would be pleased to keep them so, but the rooms have been so much overcrowded on such occasions that it has been found necessary to limit the number of admissions.

A Trotter on the Rail.

Dan. Cook's new purchase, Steinway passed through Reno Saturday night. Steinway is not a piano but a three-year-old colt that Dan paid $13,000 for in Louisville, Kentucky, the other week. He is of pure blood and horsemen say he is the most promising horse in the country. He trotted as a two-year-old in 2:31¼, and when a three-year-old won the fourth, fifth and sixth heats in 2:25¾, 2:31½, 2:31¼. Sam Gable has him in charge.

A Late Train.

The west bound overland train was four hours late last Friday night. The delay was caused by the two overland trains meeting at some point on the Union Pacific where there was no siding. The west bound train had the right to the road, and the obstructing train, in endeavoring to back up a heavy grade to a side track, occasioned a delay of a number of hours.

Santa Claus Items.

Isaac Barnett has most flourishingly prepared for the coming Holidays. Profusions of articles can be seen at his store for children, misses, ladies, brides and grooms. The assortment of dress goods is magnificent, an immense stock of twenty and twenty-five cent goods, dazzling thirty seven and fifty cent goods. Cashmeres of all colors, and very cheap black and colored silks. For all these dress goods you can find trimmings, like plain satins, striped satin, striped velvet and satin, brocaded velvet, plain silk velvet in all colors and shades. Fringes and lace.

The fancy goods department surpasses anything ever brought to Reno. A person's heart laughs to see the lovely ties, scarfs, bows, silk handkerchiefs, linen handkerchiefs with colored borders. Gloves you can get with from three to eight buttons and all colors and shades, and hundreds of other things too numerous to mention.

For house furnishing presents, you can get blankets, spreads, tablecloths, napkins and towels in abundance, at all prices. Don't fail to go to this old and reliable firm, if you want goods of the latest styles and cheapest prices. It is Isaac Barnett, Barnett's Block. Wall paper, oilcloth and carpet, a specialty.

Guilty as Charged.

That Bright's disease, Diabetes, Pain in the back and loins, Smarting, Inflammation, Calculi, Brickdust deposit, or any trouble of the Kidneys or Bladder, is cured by the use of Dr. MINTIE'S NEPHRETICUM, the great Buchu Compound. It is the most wonderful prescription ever compounded for these troubles. Messrs. Abrams & Carroll, wholesale druggists, say: "We regard Nephreticum as the best Kidney and Bladder Remedy in the market." Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggest, Portland, Oregon, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors have given them up. For sale by Osburn & Shoemaker. Price $1 25. oct 3

Brookins is in the market with a big stock of Holiday Goods, suitable for young and old, rich and poor. He has the newest and most ingenious toys and fancy articles of all descriptions. Cinchona Rubra.

There are now two kinds of drunkenness, continuous and periodical. Either kind may be termed in all respects, a disease. That it is such is proved by the one fact—afflicted parties are frequently compelled to drink against their will or better judgment. Nothing will restrain them; neither the prayers of friends, the tearful entreaties of wives and children, nor the imminent ruin of their private affairs.

The principal predisposing cause of drunkenness is a sanguine temperament, a strong incitable nervous system. Daily observation shows that men excelling in body and mind are more disposed to drunkenness than those of feeble habits. Those weaklings affected with headaches after drinking rarely become drunkards.

THE CURE—CINCHONA RUBRA.

Cinchona bark was introduced into Europe about the year 1638, but it was not until about 1737 that the plant producing it was known to naturalists. In that year, a Frenchman, on a journey to Lima, Peru, had the opportunity of examining the tree, a description of which (upon his return to Paris) he published in the Memoirs of the French Academy. Soon thereafter, Linnens, the botanist, gave it the name of "Cinchona Officinalis," in honor of the Countess of Cinchon, wife of the Viceroy of Peru, who had been healed miraculously (as the Jesuits of the day believed) by drinking from a pool of water into which the top of one of these trees, blown down by the wind, had fallen.

Cinchona stands at the head of all tonics. When taken into the stomach a pure tincture of it usually excites in a short time a warmth which diffuses itself over the whole body. After some moments have elapsed the circulation experiences its influence, as exhibited in the somewhat increased frequency of the pulse; and, after a few doses are given at regular intervals, the whole system becomes more or less beneficially affected, and all the functions undergo a moderate degree of excitement. Its action upon the nervous system is often evinced by a sense of tension, or fullness or slight pain in the head, singing in the ears, etc.; overdosing brings partial temporary deafness. But, besides the mere excitation of the ordinary functions of health, it produces other effects upon the system which must be considered peculiar and independent of its mere tonic operation. That power by which, when administered in the intervals between the paroxysms of a disease it interrupts the progress of the malady, is something more than what is understood by the tonic property; for no other substance, however powerful or permanent may be the excitement which it produces, exercises a control over periodical afflictions at all comparable to Cinchona.

In all periodical diseases, such as occasional "spreeing" and ague, there are intervals of rest or freedom from the effects of the train of morbid actions going on in the recesses of the nervous system, and but one remedy is known which has the power during this intermission of preventing a return of the condition experienced prior to its administration. That remedy is Cinchona Rubra. Exactly how it does this has not yet been satisfactorily explained; but that it does it has been acknowledged for over a hundred years. Indeed, all well-read and experienced medical men admit that Cinchona has this wonderful anti-periodic property. Prepared and sold by Dr. R. D'Unger, Palmer House, Chicago, Illinois.

How to Get Rich.

It seems to be the ambition of nearly all to gather wealth. While many earn large amounts yearly and spend nothing ough foolish habits, still find an empty treasury at the close. Why is this? Living is cheap and goods of all kinds low. Are you not paying too dear for the whistle? Did you ever examine the markets at headquarters and compare prices? For instance a pair of whole stock kip boots, warranted two solid soles and to wear one year, can be bought at the Red House, Sacramento, for $3 25, the postage on the same would be about 5 cents. How much do you pay at home? Send for a catalogue of all kinds of dry goods, fancy goods, furnishing goods, boots and shoes, clothing, hats, caps, etc. Post yourself as to the worth of goods and see if you are getting value for your hard earned money. Send for a catalogue free to all. Address the Red House, Sacramento, California. dec13-2t

Something Rich, Rare, and Beautiful for the Holidays.

Osburn & Shoemaker have just received from the Eastern cities, a choice lot of Holiday goods, consisting in part of Rare vases and toilet sets, fancy glass ware, celluloid and Russia leather sets, glove and handkerchief boxes, perfumeries, Minors' extract, colognes, card cases, photograph cases, etc., etc. In fact an endless variety of rare and beautiful things, suitable for Holiday Presents. Call and see them before making your Holiday purchases. dec10-tf

Don't stop me please, I must go to Sol. Levy's store and get some of those new fancy goods he just received. Wait a moment, and I'll go with you. dec10

Is it astonishing how cheap Sol. Levy sells his goods? Not at all; because he is satisfied with only a small profit. dec10

Where did you get your new dress, Katie? At Sol. Levy's. After hunting in all the Dry Goods stores I discovered that he undersells them all. dec10

Charley, I am in trouble, I broke Emma's fan the other night at the party. Good enough. If you want to surprise her most agreeably get her one of those lovely fans at Sol. Levy's. dec10

JEWELRY

$75.00 worth for $15.00,
—(AND A)—
Solid Abyssinian Gold Watch
FREE! FREE!! FREE!!!

The above offer is genuine, although at first sight you would consider it impossible. We will explain: Since we first established our business here, March 1st, 1878, we have paid particular attention to the buying of Bankrupt and Auction lots of Jewelry and Watches often buying at as low as one-tenth their value, and in no instance have we paid over one-sixth the manufacturers' price. Since starting we have always been able to dispose of these goods in Chicago and through our regular customers throughout the country at nearly regular prices, as fast as we could procure them, but owing to the large number of failures among the heaviest dealers and manufacturers throughout this and other countries during the months of June, July and August (the time when the jewelry business is stagnant), we have now on hand an immense stock of the most desirable goods we have ever handled, and which we have bought at lower prices than ever before. In order to dispose of this entire stock in the most speedy manner possible, and make room for new ones which we shall continue to buy, we have hit upon the following novel plan:

We propose to give you a list of the most desirable of these goods, giving opposite each article its regular retail value, and sell to you at the rate of Five Dollars' worth for $1. For instance, on receipt of 50 cts. we will send you, POSTPAID, any article to the value of $2 50; on receipt of $4, articles to the value of $8, and so on throughout the entire list. Below we give a list of the most valuable of these goods.

TO AGENTS:

For the benefit of parties wishing to act as agents for the above goods, we make the following special offer:

On receipt of a $15 order for our Jewelry, as per above offer, we will send the goods ordered, and make the party getting up the club a present of any one of the following watches:

1 Pure Abyssinian Gold hunting-case Geneva Watch.
1 Pure Abyssinian Gold open-face Geneva watch, stem-winder.
1 Pure Abyssinian Gold stem-winding watch illuminated dial, by which you can tell the time in the darkest night.
1 Pure Abyssinian silver hunting-case Geneva watch.

Any of these four watches will be sent alone for $6 50, or the watch and either a Gent's heavy Abyssinian Gold vest chain and charm, or a Ladies' solid Abyssinian Gold long opera or opera guard chain, for $8.

Agents who cannot send the full $15 00 at once can send small orders as they procure them, and when said orders shall have amounted to $30, we will send the watch FREE OF FURTHER CHARGE.

Read What the Chicago Press Say of Us, And Send in Your Orders

The Sentinel, of Chicago, Sept. 9, says: "We call the attention of our readers to the new advertisement of the Inventors' Agency, No. 116 E. Washington street, Chicago. What the Inventors' Agency agrees to do, they will do. The Sentinel has advertised for the concern since its first publication, and we have yet to hear of the first complaint against it."

The Chicago Express, Sept. 3, says: "The attention of readers is called to the advertisement of 'The Inventors' Agency,' office and rooms located at 116 Washington St., Chicago. From personal inquiry and on the recommendation of the city press, we think our friends can do no better when wanting goods in that line. Give them a trial."

The American Stockman, Sept. 11, says: "We believe this institution perfectly sound and reponsible, and consequently persons need have no hesitation about sending for what they desire."

As to our responsibility we also refer you to the following firms: Blomgren Bros., 163 & 164 So. Clark St., Chicago, Ill.; Miller, Wagner & Umbdenstock, 119 So. Clark St., Chicago.

Before Ordering, Read the Following:

All sums of money to the amount of $1 or over, should be sent by Registered Letter, Money Order or Draft on New York or Chicago. We will hold ourselves personally responsible for any money sent as above directed. All orders under $10 strictly cash. On orders of $10 or over, $5 must accompany the order, and balance, when desired, will be collected on delivery, but no goods will be sent C. O. D. to a greater distance than 300 miles. Any money received for these goods after the stock is exhausted will be immediately returned. Postage stamps will be taken the same as cash in any amount less than $100.

If on receipt of goods you are not perfectly satisfied, return them immediately in good order, and we will refund your money.

CHAMPAGNE POWDER!

Messrs. James S. Taylor & Co., 116 Front Street, San Francisco—GENTS: We are using your Champagne Baking Powder, and without hesitation we pronounce it perfection. No reasonable person could ask for a better powder. Use as directed and it never fails—only one Teaspoonful to a quart Flour.

W. R. CHAMBERLAIN
Reno, Sept. 23d, 1879.

OFFICE OF THOMAS PRICE.
Sacramento Street.
SAN FRANCISCO, May 24, 1879.

Messrs. J. S. Taylor & Co.—GENTS: I have made a careful examination of bread and biscuit prepared under my own direction by the use of your Champagne Baking Powder, and find that they do not contain alum or any other injurious or deleterious ingredients.

Respectfully submitted,
THOMAS PRICE, Assayer and Chemist.

INTERNATIONAL HOTEL.
VIRGINIA, NEV., Sept. 19, 1879.

Messrs. James S. Taylor & Co., 116 Front St., San Francisco—GENTS: I can make better results with one teaspoonful to a quart of flour with your Champagne Yeast Powder than with three teaspoonfuls of any other I have ever used. If there is a yeast powder anywhere in the world equal to it, I have never seen or heard of it. As a baker I pronounce this powder simply perfection.

AMBROS E HUSSER.

Mr. Ambrose Husser has been with me 24 years. He is a first-class baker, and I endorse the above. A. HANAK.
